Scitus Academics LLC, an international publishing company, is a one-stop solution for high quality content in Academic and Reference books. We focus on providing customers with information obtained through painstaking research and packaged into unique, interesting formats, thus establishing ourselves as a trusted supplier and a pioneer in the era of information and technology.

Scitus was formed in 2011 as a distributor of Academic & Reference Books. After experiencing quick and immense success in the field, we decided to spread our wings and explore the publishing industry. Today, Scitus Academics LLC has a widespread global footprint and publishes books for all levels of academic study and professional development. We cater to a wide range of subjects and disciplines, including Humanities, Social Science and Science and Technology.

Behind our success is an in-house team of highly-skilled development editors and illustrators, who, year after year, come up innovative ways to package and present content. We also boast a list of exceptional editors who work with our dedicated team to produce high-quality books.

Our current publishing program encompasses the liveliest, best-researched text in the fields of hospitality and tourism, energy engineering, electronics, aerodynamics, agriculture and artificial intelligence, among others. We take pride in the range and strength of the backlist and we use the latest technology to promote our content. We present our content in a wide range of formats, both in print and online and create value by combining information, deep expertise, and technology.
